

**AVAILABLE TO SHIP IN 5 DAYS\***

# SUPER LOADSTAR™ SCRAP MAGNET STOCKING PROGRAM

Ohio Magnetics stocks two sizes of Super Loadstar™ scrap magnets that can ship in 5 business days of the order! These magnets, made in the USA at our Maple Heights, Ohio facility, have the highest lifting capacity in the industry.

## SUPER LOADSTAR™ LIFTING MAGNETS

- Sizes 48-, 58- and 67-inch diameter
- Heavy duty cast case construction
- Lifting capability range 2,200 to 4,585 lbs.
- 230 VDC standard
- Continuous duty cycle ratings
- Extra deep field coil design
- Magnet options matched to excavator mechanical and hydraulic capacity
- Chain suspension standard
- Standard hard-face weld for high abrasion applications

## QUALITY

For more than 100 years, Ohio Magnetics has designed and manufactured quality magnetic lifting systems and also provides:

- Comprehensive technical and repair services
- Expertise on proper use and handling for peak performance and longevity
- Support to achieve maximum efficiency, safety and longevity

## VALUE

Ohio Magnetics engineers products for long, reliable life and easy serviceability which lead to low maintenance costs and less downtime.

\*Ohio Magnetics will maintain a predetermined quantity of inventory each month. Large orders may be subject to longer lead times due to availability.

DIAMETER SIZE (IN.)	COLD AMPS AT 230 VDC	REQUIRED KW	APPROX. MAGNET SHIPPING WEIGHT (LBS.)	WIRE SIZE	CONTROLLER SIZE	AVERAGE LIFTING CAPACITY (LBS.)		
						#1 H. M.	#2 H. M.	STEEL TURNINGS
48	40	9.2	3,500	#6	MC-1A	2,200	750-1,470	765
58	56	12.9	5,100	#6	MC-1A	3,240	950-2,170	1,150
67	81	18.6	6,300	#4	MC-1A	4,585	1,470-3,250	1,475
